## **1 - Umm. I dunno.**

Life people live it everyday. Dreams; everyone has them but then the cruel reality crushes them into nothing. Love; it real? Or is it just some word that people throw around loosely now-a-days?

Love at first sight? Is it possible to love someone before you know them?

Is it okay to go out with one of your friends? Chance ruining your relationship with them because if it doesn't work out 'cause you found someone else that you like.

Is it better to love and be let down than to never have loved at all? Is it really love when you get butterflies in your stomach while talking to that someone?
