Evening and night

Go outside

lie down on your back

feel the grass ripple beneath you

feel as the cool night breeze kisses your cheek.

Watch it as it glides

through the open skies

waxing waning

melting into place.

Watch them as they bow

to the moon's every wish

because they know

to her, they are inferior.

Feel the palmtrees

as they sway

to the twinkle

of the stars.

Breathe!

it gives you life

this priceless memory

of the skies.
