# 1 - A Memory You Don't Want to Remember

Memory isn't always a good thing. I remember one such memory... *There is a noise.*

*A noise that is coming closer. I breathe in, turning around, my long white cape flowing behind me.*

*A cloud.*

*A cloud that is coming closer. My staff appears in my hands. I hold it in front of my face.*

*A laugh.*

*I look up to the cloud. It turns dark and I see dark hair flowing far behind the cloud.*

*A scream.*

*I spun around. Mars? She collapses, holding her side, blood rushing through her fingers.*

*I scream.*

*What's happening? I run toward Mars, gathering her limp form in my arms. I call out her name, she doesn't move. I hold my ear to her heart. I hear no beating.*

*"Mars?"*

*A laugh comes again. The dark cloud lands in front of me. A lady steps down, and then kneels down in front of me, her hair flowing behind her.*

*Tears.*

*They are coming down my face. She grins a grin that is so evil, that I lash out at her with my hand.*

*She catches my hand and twists it so it becomes painful.*

*I use my staff on her and she disappears. I get up slowly, picking up Mars and running for Crystal Tokyo.*

*Meteors are coming down, engulfing everyone who is unlucky to be where it hit.*

*Venus comes up to me, the inner senshi following her. She is holding her arm, asking what is happening, and I can't answer.*

*They all gasp at Mars lying limp in my arms.*

*A surprise attack, Mercury says, mournfully.*

*I try to gain control over myself. I tell the senshi to use all their power to defeat whoever attacked us.*

*I set Mars down and went to find Endymion and Chibi-usa. Endymion was wounded badly in the stomach, Chibi-usa trying to pull him along.*

*I rush over to her, cuddling Endymion's head in my arms. Endymion, I say.*

*He says for me to leave him for now and go fight. It takes a lot of convincing, but I do it.*

*The outer senshi arrived by my side, casting their attacks at the demons that are pouring out of the skies.*

I start to laugh. A crazy laugh. One that I can't stop, and I'm then reduced to tears. Tears that slowly pour down my face, then it's coming faster. I lean against the wall, looking at my crumbled home.

I look at the graves and close my eyes.

That memory happened so long ago... Since then, I had been fighting for so long, losing a senshi, one by one...

Mars, the first to go.

I gave up hope with her gone.

I couldn't do it. I couldn't fight on.

Then Mercury.

Venus.

Jupiter.

Uranus and Neptune.

And then...

Endymion.

Sobs start to shake my form again. I can't control them.

Chibi-usa.

She died, fighting along with Saturn. Pluto died trying to protect them both.

I couldn't do anything.

I couldn't save them.

Why wasn't I one to die?

Why couldn't I? I didn't want to face this trial alone.

I stand, walking over to the graves. I stop before each of them, saying words for each of them. I stop by Pluto's coffin that I have yet to bury. I reach out to her belt and take a key.

Chaos.

The murdering person, no... *thing*, killed all my friends. My family.

I can't do this anymore. I hold up the key and wind starts whirl all around me. A door appears in front of me, and I take a long step forward through the door.

I hold out a pen and I transform myself into a child.

I go through the door, light swirls around, and I float cautiously down with my umbrella, hoping to change the future.

I can't take this anymore.

I'm going to change my destiny.

**Please leave a review... Sorry if you didn't like it... I had a hard time coming up with an idea... Sorry that's its also short... :D**
