Link grabbed his ocarina and played prelude of light to leave the fight and come back later. when he got to the temple of time he went to hyrul feild and of course navi says "HEY listen, souldn't you be saving the princess?" "I would if I weren't nearly dead!" link said angrily "well excuse me for trying to tell you the right thing to do!" "well i know wath to do navi so its time that i dont need your help anymore!". Link took out his sword and chased navi around until he was bored of running and pulled out a shot gun a shot her so link was free of navi.
