

# 1 - The Unknown Princess

Chapter One

Introducing Jackie!!!!

Jackie Egypt is her full name. We will be talking about her in the first two in a half chapters before we start talking. We start at where Jackie's parents die.....

"Oh, aren't she look beautiful." "Yes she sure does." The scene that we are at is located in Egypt. The parents got a message that they were going to be killed unless they give Jackie up, which was very hard for them because Jackie was born just 7 months ago. But they sent Jackie to Virginia in America. Her grandma took care of her, because she was all alone. Her husband died twenty years ago so she was taking care of her. Unlucky.....her parents were killed for not doing what they requested. Through the years as Jackie grew up her grandma died at Jackie's birthday. After that her life was hard, and it was time for Jackie to leave Virginia.
