female

granddaughter of Knuckles and Raven who came from the future to warn the ST about a new enemy in the future.She wears a torn short white shirt that has a red stripe across it and red torn jogging pants with a white stripe on the sides and red -stripped shoes.She looks just like Raven,just picture her with echidna quills and claws.

She likes to watch the Terminator because it reminds her of her trip to the past.

Powers:She does martial arts and has most of Knux and Raven's powers.She carries around a machine gun from the future.

likes:fighting for freedom

dislikes:her enemies,and people who get in the way of Knux and Raven.
