*Experimenting with combining poetry, dairy writing, and song lyrics (not my own!). A way of expressing mixed feelings in a different type of way.*

**Chapter 1 - 'Whispers in the Dark'**

**2**

If eyes are clouded by hate, fear, and jealousy the mind will close and never let out the painful that has built up inside the room of your heart.

Though it is hard not to close off from the world and it's ugliness and evil.

At the same time we close off all the peace and love that shares the same world as darkness...

*'Despite the lies that you're making*

*Your love is mine for the taking*

*My love is just waiting*

*To turn your tears to roses'*

Why do they hate me, why do they hurt me...

When I thought everything was okay.

It seemed not to long ago we were together and laughing in our friendship.

What has now changed?

Have i not done enough to please you? Have I not done something right?

These are the questions I ask when I look at the sly smirks and chuckles from them as I stare across the room...

Then I look and realize the selfish cold stare them give in there eyes, their windows to there souls.

I can see clearly now their motivations, their deception, their selfish intentions, and mostly their pain.

I feel for them deep inside and I wonder if this is real...

How could this be real...

*'I will be the one that's gonna hold you*

*I will be the one that you run to*

*My love is a burning, consuming fire'*

But still I pull deep from my heart to forgive and force my emotions to sustain and and feel your pain.

I make excuses with no regards to my feelings, they do not matter.

It's my job to save you, to walk through fire for you.

Protected by grace I do not feel the burn, and I take the fall...

I would do anything to return the love in your eyes...

*'No, you'll never be alone*

*When darkness comes I'll light the night with stars*

*Hear my whispers in the dark*

*No, you'll never be alone*

*When darkness comes you know I'm never far*

*Hear the whispers in the dark*

*Whispers in the dark'*

Time goes on, and so does your behavior.

Never improving, your just always excusing...

Because you've felt pain and anguish, and you don't know what to do...

And handle your emotions.

This I am patient of and stay still as you scream your lungs out, leer, sneer, and put down others and what life has offered you.

Never accepting the opportunities to change...

I was tolerant of your ways until you turned them again me.

Too afraid to stand up and show you how I could really be,

Instead I let you walk over me...

Hoping that another day will bring new hope.

I try to hold my breath when I look away waiting for the rage to pass.

I lay on my bed awake at night wondering thinking about how I really feel.

And when I pass by I am able to muster a joyful smile in hopes to ease you.

Never realizing the strain I take upon me,

with head in hands as I some days struggle with tension in the corner of my room ,

either with a cold stare, a tear on my cheek, or piercing wail escaping in those rare moments of peace.

*'You feel so lonely and ragged*

*You lay there broken and naked*

*My love is just waiting*

*To clothe you in crimson roses'*

I start to wonder if it is really worth the pain,

is your friendship really worth hanging on to...

You know I can leave all of you and never come back,

Never have to see your faces again,

Never have to heard your insult, and lies,

Never have to see your betrayal over and over again.

(despite you beaten and broken you stand up to be the hero for other while you get kicked back down again because other are not a kindhearted as you)

*'I will be the one that's gonna find you*

*I will be the one that's gonna guide you*

*My love is a burning, consuming fire'*

(You see the thank you in your loves eyes and the smile on there face and you know it's all worth wild)

*'No, you'll never be alone*

*When darkness comes I'll light the night with stars*

*Hear my whispers in the dark*

*No, you'll never be alone*

*When darkness comes you know I'm never far*

*Hear the whispers in the dark'*

(You get back up and keep on fight, inspired but still confused)

*'No, you'll never be alone*

*When darkness comes I'll light the night with stars*

*Hear the whispers in the dark  
No, you'll never be alone  
When darkness comes you know I'm never far  
Hear the whispers in the dark  
Whispers in the dark  
Whispers in the dark  
Whispers in the dark'*
